

## FORMS7: New Sub-Project Request - ESTATES

The purpose of this manual is to explain how to request a New Sub-Project using Agresso Forms. This New Sub-Project Request Form will then follow an Approval workflow dependent on the Cost Class selected on the Form until it then a new Sub-Project is created, or the request is rejected and closed off.

This form will cover the following cost classes:

701	Estates - Capital Projects
703	Estates - Revenue Projects
704	Estates - Campus Redevelopment Projects
705	Estates - Reactive & Planned Maintenance
706	Estates - Annual Spend

Once the New Sub-Project Request Form has created a new Sub-Project an email will automatically be sent to the Form Requestor and Sub-Project Budget Holder making them aware the Sub-Project is available to use.

There is also an enquiry that can be used to check the status of the Request as it goes through the workflow process.

## FORMS7.1: New Sub-Project Request

1. To access the New Sub-Project Request Form:
